Education

NMAM Institute of Technology

Bachelor of Technology in Computer Science and Engineering (Cyber Security)

Aug 2023 – July 2027

Nitte, Karnataka

- CGPA: 9.59 / 10.0

Experience

Application Development & Cybersecurity Intern

Vill Design Co. Ltd

Oct 2025 – Aug 2026

Fukuoka, Japan (Remote)

- Developed and enhanced full-stack web application features using React.js, Node.js, Express.js, REST APIs, Redis, BullMQ and WebSockets contributing to backend services and asynchronous workflows.
- Worked with Docker, AWS and Git-based development workflows for testing, debugging and deployment, resolving application issues across development and production environments.

Projects

Fortexa - Automated Security Scanning Platform | *React, Node.js, MongoDB, Redis, Docker, AWS*

Aug 2026

- Developed a full stack security scanning platform using React.js, Node.js and Express.js for automated website analysis, scan management and report generation.
- Implemented asynchronous job processing using Redis and BullMQ, real-time scan tracking using WebSockets and integrated OWASP ZAP and third party APIs through Docker based AWS deployment.

HerMedi - AI Prescription Assistant | *Link* | *Python, OCR, AI, NLP*

Mar 2026

- Developed an AI-powered application using OCR and multilingual NLP to extract prescription information and simplify complex medical instructions.
- Designed the document-processing workflow to extract relevant information and identify important warnings.

Behavioral Sensitivity Based Malware Detection *GitHub* | *Python, XGBoost, Scikit-learn, Pandas*

Jul 2026

- Developed a Python-based machine learning pipeline using XGBoost and the EMBER 2018 dataset for malware classification and behavioral feature analysis.
- Implemented controlled feature perturbation experiments to measure prediction sensitivity and evaluated model performance using ROC-AUC and classification metrics.

Achievements

Second Place – Flinders University AI Hackathon [[Certificate](#)]

Mar 2026 – Mangalore, Karnataka

- Developed an AI chatbot with guardrails and safety mechanisms.

Runner-Up – Her-a-thon Women Only Hackathon [[Certificate](#)]

Mar 2026 – Nitte, Karnataka

- Developed an AI-powered OCR application for prescription analysis.

Top 6 Finalist – Idea Hackathon, Ayush Habba [[Certificate](#)]

Feb 2026 – Mangalore, Karnataka

- Developed a digital healthcare platform for health tracking and teleconsultation.

Technical Skills

Programming Languages: Python, Java, C, SQL

Software Development: React.js, Node.js, Express.js, REST APIs, WebSockets, HTML5, JavaScript

Databases: SQL, MongoDB, Redis, Firebase, SQLite

Cloud & DevOps: AWS, Docker, Git, GitHub

Machine Learning: PyTorch, XGBoost, Scikit-learn, Pandas

Cybersecurity: OWASP ZAP, Burp Suite, Wireshark, Nmap, VirusTotal

Certifications

AWS Cloud Practitioner Essentials – [Certificate](#) – AWS Training & Certification

Jul 2026

Internet Crimes and Cyber Security (Elite, Top 1%, Score: 100/100) – [Certificate](#) – NPTEL

Apr 2026

Cybersecurity Workshop – [Certificate](#) – Thaniya Technologies & NMAMIT

Jul 2025

Machine Learning Research Intern – [Certificate](#) – NMAM Institute of Technology, Nitte

Aug 2025
